

Bumble bees

News letter

April 2017

Welcome to bumble bees!! We are very excited about all the recent changes and we hope you all like them to if you have any questions or concerns please speak to a member of staff in the room :)

Natalia has been very busy making a self registration system for the room, please could you encourage your child to find their name on the door and place it on the inside, this helps with name recognition and gives children a sense of belonging.

Exciting Activities

We will be having chatty little fingers in bumble bees every other week.

Natalia will be doing toddler yoga session on a Monday morning.

Ellie will be completing a cooking activity with the children each week and there will also be a den building session with Celia once a week .

We are looking at spring this term and will be growing some cress and going on outings to look for different flowers.

Please can we remind you not to dress your children in their best clothes, we get very messy at nursery and we would hate to ruin anything. We have nursery tops on sales at just £5 each they are perfect for messy activities!

We love to hear about what your children have been up to at home, seeing what your child is interested in and watching their achievements helps us to plan for them here at nursery please send us observations using the EY log app, if you need any help using the app please feel free to ask Ellie or Celia.
